

## TRAILS

### SUPERSTITION WILDERNESS

There is a network of some 170 miles of “system” trails serving the Superstition Wilderness Area and contiguous areas. Their condition varies from satisfactory to very poor. All trails are closed to motor vehicles and mechanical transport such as bikes.

Use a great deal of caution when traveling on backcountry trails such as this one and be aware of the risks you assume.

A few brief comments are in order about the following trail:

**Spencer Trail 275:** 4.6 miles long. Parallels Spencer Spring Canyon and is subject to flooding. Parts are difficult to locate, and are also steep. Rarely maintained. Elevation: 3,660 - 5,00 feet. Termini: Trail 212, and Forest Road 650.

No more than 15 people are allowed to be in a group. No more than 15 head of livestock are allowed in a group.
